Coltivare una vita
più Sostenibile

BM LUXURY

Welcome to the 2025 Capi Magazine!

Siamo entusiasti di presentare la nostra ultima collezione, ricca di nuovi design e colori. Quest'anno continuiamo a combinare design e sostenibilità, offrendo pezzi pratici che valorizzano qualsiasi spazio interno o esterno.

Il mondo che ci circonda. La nostra collezione 2025 include molti prodotti realizzati con materiali riciclati, articoli dalla lunga durata e prodotti che ti aiutano a contribuire alla biodiversità. Lavoriamo duramente per ridurre la nostra impronta di carbonio e sostenere uno stile di vita più verde. Ogni articolo della nostra collezione è creato per essere sia bello che sostenibile. In questo catalogo scoprirai anche la storia di Capi. Dal nostro inizio come piccola impresa a conduzione individuale fino a diventare un marchio internazionale. Siamo orgogliosi di condividere il nostro percorso con te. Scopri l'ispirazione dietro i nostri design e come ci impegniamo ad essere responsabili in tutto ciò che facciamo. Unisciti a noi mentre continuiamo a coltivare una vita più verde, insieme. Grazie per essere parte del nostro viaggio. Buona lettura e lasciati ispirare dal mondo di Capi!

This is Mosey, our happiness manager at the office.

SHOW HOW IT'S DONE.

Grandi storie? Ne sentiamo già abbastanza. Quindi, andiamo dritti al punto.
COME LO FACCIAMO.

Siamo Capi, e lavoriamo per un mondo più verde per tutti, insieme a tutti.

Aspettare passivamente un mondo migliore? Non è il nostro stile. Noi facciamo accadere le cose.
I nostri prodotti sono belli?
Questo lo deciderai tu. Al resto pensiamo noi.

E per resto intendiamo prodotti di qualità elevata e duratura: resistenti agli agenti atmosferici, ispiratori, con design e colori per tutti.

Ogni nostro vaso si adatta a una pianta, un giardino, un interno, una terrazza o un balcone.
Da quei vasi nasce e fiorisce nuova vita.

Facciamo in modo che i prodotti non siano più d'ostacolo alla nuova vita.

I vasi Capi sono pensati per una nuova generazione; qui nasce e sboccia nuova vita.

Grow a **greener life.**
Together.

Scan this QR Code to check our brand movie.

TUTTO RICICLATO

12 No waste!

The edges coming of the pot will go into our own shredder. This means there is no waste during our whole production process.

13 Back to the roots

The material coming from our shredder goes back to our supplier. There they will be used for new materials.

14 Transportation

A small conveyor belt transports the pot from stage to stage. Every stage has its own robot that takes the pot from the belt into a specific cell. If the pot does not need to be painted, the conveyor belt will take it directly to the end of the belt.

17 The last step

The last step: a Capi label and a potcard. The pot is now completely finished and ready to hit the stores!

16 End of the belt

There it is, a freshly painted or non-painted pot ready to be labelled. From here, all the pot needs is a Capi label and potcard.

15 Painting process

The last stop of the finishing process is painting the pot. The pot is automatically placed in the correct painting cell and painted in the right colour.

Capi Headquarters in The Netherlands.

At the end of 2017, Capi moved to a brand new building in Tilburg. The company is now twice as large and occupies an area of over 38.000 m². The production capacity of the factory has increased with a lot of new robots since the move. We have 7.850 solar panels on our roof providing electricity for our headquarters. The energy generated by this amount of solar panels equals electricity for around 900 households.

In-house warehouse and production.
In our in-house warehouse, we manage our own stock. We have room for 20,000 pallet places here. We also have our own factory where we produce our Made in Holland collection.

Grow a greener parking lot.
In april 2022 we removed the tiles in our parking lot to make place for a beautiful patch of grass. It creates room for biodiversity and ensures a better water drainage.

Located in nature.
Capi's head office is located on an industrial area and close to major roads. You wouldn't say so, because the building is surrounded by a lot of greenery and water.

Our office dog, **Mosey**, reduces stress and brings a lot of happiness to team Capi!

The orange interior.

Our well-known Made in Holland pots all feature an orange interior. The orange inside is a recognisable feature for our brand. This is for several reasons. Read why here:

L'interno arancione

Made in Holland.

I vasi con l'interno arancione sono tutti realizzati a Tilburg (Paesi Bassi). L'arancione è naturalmente un simbolo dei Paesi Bassi, basta guardare le maglie della squadra nazionale olandese. In tutto il mondo, il colore arancione rappresenta i Paesi Bassi.

Insulating layer for plants.

L'interno arancione è in realtà un secondo strato che funge da strato isolante. Protegge le radici della pianta dal freddo in inverno e dal caldo in estate.

Extra strength.

Lo strato arancione rende il vaso anche extra resistente, rendendolo infrangibile.

The symbol for reshoring.

Per varie ragioni, abbiamo riportato la produzione nei Paesi Bassi 10 anni fa. Una parola difficile per questo è "reshoring". Per riconoscere i vasi olandesi, è stato quindi dato loro un interno arancione.

Indoor & outdoor.

I vasi Made in Holland possono essere utilizzati sia all'interno che all'esterno. Sono al 100% impermeabili, il che li rende perfetti per l'uso interno. Per l'uso esterno, basta praticare un foro di 25 mm per garantire il drenaggio dell'acqua.

With the **orange interior**.

The Dutch touch.

La collezione Capi Made in Holland è prodotta nella nostra fabbrica a Tilburg. Grazie al nostro processo produttivo, siamo in grado di realizzare vasi di alta qualità, completamente riciclabili e garantiti a vita. L'interno arancione di questi vasi rappresenta il loro luogo di origine ed è diventato un elemento distintivo del nostro marchio. Inoltre, lo strato arancione offre isolamento, proteggendo ulteriormente le radici delle piante sia dal caldo che dal freddo. Questo strato aggiuntivo conferisce maggiore robustezza al vaso, rendendolo resistente alle fratture.

Outdoor
 25 mm
 For outdoor use, please drill a 25mm hole to ensure water drainage.

The **Cork** collection

98.6% MADE FROM WASTE, 100% HONEST.

VINVENTIONS

[Click for more information.](#)

RICICLATA AL 98,6%

Da dove provengono?

La collezione Waste è realizzata al 94% da tappi di plastica riciclati. I tappi provengono dalla società francese Vinventions, che produce tappi sintetici e capsule a vite per bottiglie di vino. Hanno un programma di riciclo dei tappi e i tappi usati vengono acquistati dal nostro fornitore e trasformati in materia prima. I proventi di questo processo vengono destinati ad associazioni come fondi per la ricerca sul cancro.

Per completare il vaso, vengono aggiunti il 4% di corde agricole e una piccola quantità di reti da pesca usate (1%). Come il resto delle nostre collezioni Made in Holland, questi vasi sono prodotti nella nostra fabbrica nei Paesi Bassi e sono dotati di garanzia a vita. La collezione è disponibile in un vivace colore beige, con due texture sorprendenti: Rib e Smooth.

Certificato RecyClass

Questa collezione è certificata Recyclclass al 98,6%, dimostrando che è effettivamente composta da materiali riciclati, nel nostro caso al 98,6%! La certificazione si concentra sulla tracciabilità delle plastiche riciclate all'interno di un processo e sulla verifica della percentuale di plastica riciclata presente nei prodotti.

Alla fine, un prodotto è realmente composto da ciò che dichiara? Capi voleva dimostrare che ciò che affermiamo sui materiali riciclati in questa collezione è vero. È per questo che ci siamo rivolti a Recyclclass. E l'altro 1,4%? Si tratta di additivi per legare i materiali e dare ai vasi il colore uniforme che li caratterizza.

We received the **RecyClass certificate** for the Cork collection. The pots cannot consist of 100% recycled materials because of extra additives such as dye and starches.

Balcony 'Made With'

Balcony Planter 'Made With'

Introducing our first-ever balcony planter. A new addition to our outdoor collection. The balcony planter is made with recycled materials and available in unique colours, each with its own special story:

The **green** colour is made with artificial grass, bringing a touch of nature to your balcony. The **warm taupe** colour is made with rice husk, adding an earthy and warm tone. The **white** colour is made with sawdust, offering a natural and serene feel. Last, but not least, the **black** planter is made from recycled textile. Fashion for your balcony, that will definitely give your balcony a sleek and modern look.

Biodiversity collection

Catch rainwater when it falls.

The climate is changing and the weather is becoming more extreme. There are more days with heavy and prolonged rainfall. And at the same time, there are more periods of sustained heat and drought. This has many adverse consequences. To help maintain a water friendly garden, Capi has developed several design rain barrels.

In today's world, where climate change has led to erratic weather patterns and increasing heat, the problem of rainwater runoff and heat build-up in urban areas has become a significant issue. Excessive rainwater runoff not only contributes to flooding but also exacerbates the urban heat island effect, making outdoor spaces uncomfortable and less sustainable.

Fortunately, Capi's rain barrels offer an effective solution to this problem. By collecting rainwater from rooftops, this precious resource can be stored and utilized for your garden's irrigation needs. You can nourish your plants with this natural resource, reducing the need for tap water consumption. This not only saves money on water bills but also minimizes the strain on local water supplies.

The Capi rain barrels are available in a variety of sizes, ensuring that you can find the perfect fit for your needs. Whether you have a small garden or a larger outdoor space, there's a rain barrel that suits your requirements. Additionally, the two different textures available allow you to choose a design that complements your aesthetic preferences and seamlessly integrates into your garden.

All rain barrels come with a planter on top. This way you can also add some extra green to your garden. Fill the planter on top with some flowers that attract birds, bees or butterflies to boost the biodiversity in your garden.

Did you know... Rain water is better for your plants than tap water, because it contains less chalk!

Warranty

Just as our Made in Holland collection, our rain barrels come with a **lifetime warranty**. The barrels are very sturdy, weather resistant and can hold a lot of water. The accessories of the rain barrel come with a 5 year warranty and can be replaced easily without moving the rain barrel.

LIFETIME WARRANTY **5 YEAR WARRANTY**

Available in two textures and two colours:

Available in two textures and two colours:

The Hive models have a **click & combine** clip on the back. With this clip you can easily click several bird- or insecthouses from this collection together. This way you can create a full biodiversity wall or some bird villa's in your garden!

Contribute to biodiversity.

Scopri la Biodiversity Collection, una gamma di casette per uccelli e insetti progettate per sostenere la biodiversità nel tuo giardino o spazio esterno. Disponibili in due forme, ovale e a nido d'ape, e in due colori naturali, marrone e antracite. Queste casette si integrano perfettamente nell'ambiente naturale, offrendo un rifugio sicuro per diverse specie.

I giardini in tutto il mondo stanno diventando sempre più composti da pietra. Ed è un vero peccato, perché insetti e uccelli hanno meno spazio per svolgere il loro ruolo naturale. Poiché uno stile di vita verde è molto importante per molte persone e per aiutare gli animali, abbiamo progettato la Biodiversity Collection.

La Biodiversity Collection include una varietà di rifugi, tra cui casette per uccelli, casette per farfalle e hotel per api, ognuno studiato per attirare creature specifiche.

Dalla fornitura di siti di nidificazione per uccelli alla creazione di habitat per farfalle e impollinatori essenziali come le api, queste casette svolgono un ruolo fondamentale nel supportare la biodiversità. I modelli ovali hanno una forma naturale, che si adatta a qualsiasi giardino.

I modelli Hive presentano un design geometrico moderno, con un sistema di aggancio click & combine sul retro. Per le casette per uccelli, offriamo due diverse dimensioni di apertura, che attraggono specie diverse a seconda della grandezza dell'ingresso.

Place the drainage cap over the (drilled) drainage hole on the **inside** of your planter. This prevents the hydro grains to fall out of the drainage hole.

Due to the wheels under the trolleys, they are **movable in all directions**.

Capi Accessories

The Capi accessories collection has been added to increase the ease-of-use of our products. Various products that will help consumers embrace the green lifestyle, in a pleasant and easy way.

**Vasi realizzati con
materiali riciclati.**

NEW

Pots made with recycled materials.

Rivoluziona il tuo arredamento interno con la nuova Capi Indoor Collection, una gamma di vasi che combina un design straordinario con la responsabilità. Realizzati tramite stampaggio a iniezione, questi vasi non sono solo visivamente accattivanti, ma anche realizzati con materiali riciclati, incarnando un impegno verso la sostenibilità.

Questa nuova Indoor Collection presenta vasi realizzati con tessuti, erba artificiale, segatura e rifiuti medici. Ogni vaso racconta la storia di come questi materiali di scarto vengono trasformati in qualcosa di bello.

I vasi beige sono realizzati con segatura, che conferisce loro un colore beige tenue. In questo modo, i residui di legno non sono più uno scarto ma trovano un nuovo scopo.

Poi c'è un fresco colore verde, ottenuto con erba artificiale. Letteralmente e figurativamente, un tocco di verde nella tua casa.

Disponibili in tre diverse dimensioni, questi vasi sono adatti a diverse piante e spazi, offrendo infinite possibilità per aggiungere un tocco di verde alla tua casa o al tuo ufficio. Inoltre, questa collezione è dotata di una garanzia a vita, garantendo qualità e lunga durata.

Non solo arricchisci i tuoi spazi interni, ma contribuischi anche alla riduzione dei rifiuti. Questi vasi sono un potente promemoria che prendersi cura dell'ambiente non è così difficile.

I vasi neri sono realizzati con tessuti. In questo modo, vecchi indumenti e altri tessuti non devono essere bruciati, ma ricevono una nuova vita.

I vasi in Rame Metallico sono realizzati al 99% con rifiuti medici, la percentuale più alta possibile! Vasi bellissimi con una loro storia, per un mondo migliore.

Preferisci usare questi vasi all'esterno? Nessun problema. Basta praticare un foro di drenaggio sul fondo e potrai decorare il tuo balcone o i tavoli esterni.

Coltiviamo insieme una vita più verde.

Made With Groove

This Indoor Collection features pots made with textiles, artificial grass, sawdust and ricehusk. Each pot tells a story of repurposing and transforming one of these residuals into something beautiful. You not only enhance your indoor spaces but also contribute to the reduction of waste. These pots serve as a powerful reminder that taking care is not that hard. Available in 4 sizes and 6 colours, in combination with our bestselling Groove texture.

Mix & Match
different colours!

Groove Colours

The Groove Colours collection combines a natural touch with remarkable colours. This way a colourful and extraordinary look has been added in our collection. Pick your favourite colour or mix and match them all together.

The Groove collection is, as the name says, inspired by grooves. From the vertical grooves in rocks and mountains that arise from natural changes occurring over the years.

Retro Gold

The Retro is inspired by the old and the new. Gold or copper, round shapes and a smooth design. Mix old and new together to create a luxurious look. Besides the gold, a copper colour has recently been introduced. This colour is shiny, dark and a bit mysterious at the same time.

Available in:

5 YEAR WARRANTY

Warranty & service.

Every single Capi product comes with a warranty. Our Made in Holland collection comes with a **lifetime warranty** on manufacturing defects when the products are being used properly. We are proud to offer a lifetime warranty on these products to show you that we believe in the quality and long lifespan of our products. We live in a consumer society where we of course want to sell as many pots as we can. But we don't want people to buy a pot and just use it for a few years to throw it away afterwards to buy a new one. We would like to make sustainable design pots that last a lifetime!

The rest of our collection comes with a **5 or 10 year warranty** on manufacturing defects. These warranty rules only apply when the products are being used properly. Every product had its own label that shows the warranty period for that specific product.

If anything happens to a Capi product when it is in use, or when a customer comes back with a complaint about a product, please do not hesitate to contact our service department. We are happy to help you. Please visit capi-europe.com/en/guarantee/, fill out the form and we will make sure you will be assisted as soon as possible.

It will be very helpful if you would describe and attach the following:

- Description of the complaint.
- Type of product and size.
- Photos of the product and their defect.
- Purchase receipt.

Filling tip.

1. Choose an impressive plant.
2. Fill the planter for 1/3 with hydro grains.
3. Fill the planter for 2/3 with soil.
4. Put your impressive plant in the soil.
5. Enjoy the growth.

Outdoor use? Please drill a 25mm hole to ensure water drainage and place our drainage cap on top (see page 67).

Our warranty rules apply when our products are being used properly. There are some things to take in mind when using a planter;

- Planters need a drainage hole when being used outdoors. This allows the roots of the plants to breathe and it makes sure the water can drain off. This drainage hole also makes the planter frost-resistant. In addition, it is important that the pot is kept off the ground in frosty conditions. If the pot has a flat bottom, it can be placed on pot feet or a trolley.
- Make sure the drainage hole is at least 25mm, otherwise it may be clogged by the hydro grains in the pot. If the pot doesn't have enough drainage, the plant will be standing in too much water for too long (and the pot won't be frost-resistant). Poor drainage can also cause calcification on the outside of the pot. This is easy to clean, but even easier to prevent with a good drainage.
- When the pot is filled, it is less easy to move it because of its weight. Therefore, find a suitable spot in advance. If you do want to move the pot (e.g. because plants have to go inside during the winter), preferably use a trolley or lift the pot at the bottom with two people. Do not lift the pot by the

- edges, but at the bottom. The edges are no longer fracture-resistant when the pot is fully filled, because of the weight.
- Not all plants are suitable for pots. Our pots are only fracture-resistant if the potted plants and their roots remain in proportion. Plants with fast-growing roots, create increasing pressure and are not suitable for placing in flower pots. These include tree species, fast-growing plants and, for example, bamboo. These plants are mainly suitable for placing in the ground. If you want to put them in a nice pot, make sure you regularly repot them to a larger pot. If in doubt, always contact our service department or ask for advice in the garden center.
- Make sure the plants are in proportion with the planter you place them in. If the plant is too big or too high the plants probably do not have enough space to grow, and the pot probably can't hold the plant, in gusts of wind for example, because the pot is not heavy enough to stay upright.

- A flowerpot can always get dirty, especially if it is outside. The flower pots can easily be cleaned with a soft brush or cloth, possibly with some warm water and a little detergent. For shiny flower pots, preferably use a soft cloth to avoid scratches. Do not use high-pressure cleaners, caustic/abrasive products or products with chlorine/other bleaching agents.

Feel free to contact our service department if you have any questions.

Happy to help.
